

Comstock Resources, Inc. Reports Fourth Quarter And Annual 2012 Financial And Operating Results And Restatement Of 2012 Quarterly Results

February 11, 2013

FRISCO, Texas, Feb. 11, 2013 /PRNewswire/ -- Comstock Resources, Inc. ('Comstock' or the "Company") (NYSE: CRK) today reported financial and operating results for the three months and year ended December 31, 2012. Comstock also announced that it is restating results for the first three quarters of 2012 to reflect a change in the method used to account for the Company's crude oil derivative financial instruments.

Financial Results for the Three Months and Year Ended December 31, 2012

Low natural gas prices continue to adversely impact the Company's financial results for the fourth quarter of 2012 as Comstock reported a net loss of \$78.2 million or \$1.68 per share as compared to the net loss of \$41.1 million or 89¢ per share for the three months ended December 31, 2011. The fourth quarter of 2012 results include impairments of certain natural gas producing properties and exploratory acreage of \$78.6 million (\$1.1 million after tax or \$1.1 0 per share) and an urrealized loss from derivatives of \$2.0 million (\$1.3 million after tax or 32 per share), while results for the three months ended December 31, 2011 included impairments of \$50.6 million (\$1.9 million after tax or 64 per share) and a gain on sale of marketable securities of \$2.9 million (\$1.1 million (\$1.3 million (\$1.3 million (\$1.3 million (\$1.3 million (\$1.5 million

Comstock's oil production in the fourth quarter of 2012 increased 62% to 561,000 barrels as compared to 346,000 barrels are on way per alratery and a year on sale or marketable securities of \$2.9 million after tax or 4¢ per share). Constock's oil production in the fourth quarter of 2012 increased 62% to 561,000 barrels of all parels in the fourth quarter of 2011. Conversely, oil production in the fourth quarter of 2012, which averaged 6,100 barrels of all per day, decreased from the 7,200 barrels or day or production in the third quarter of 2012. Which averaged 6,100 barrels of all per day, decreased from the 7,200 barrels per day of production in the third quarter of 2012. Which averaged 6,100 barrels of all per day, decreased from the 7,200 barrels per day of production in the third quarter of 2012. Which averaged 6,100 barrels of all per day, decreased from the 7,200 barrels per day of production in the fourth quarter of 2012. Which averaged 6,100 barrels per day, decreased 11 lift installation. Limited growth oil production in the fourth quarter had been expected with respect to horizontal drilling activity in West Texas and pad drilling in the Eagle Ford shale resulting in a small number of wells coming on line in the quarter. The Company's natural gas production decreased 24% to 17.9 billion cubic feet ("IMMcf") per day and declines resulting from the decrease in the Company's natural gas directed drilling due to the very low natural gas prices in 2012.

Comstock's average realized price for natural gas of \$3.05 per Mcf for the fourth quarter of 2012, usas 10% lower than the \$3.40 per Mcf realized for the fourth quarter of 2011. The Company's average realized price for oil for the fourth quarter of 2012, including hedging gains, was \$101.56 per barrel, which was 1% higher than the average price of \$100.18 per barrel in the fourth quarter of 2011. Total oil and gas sales for the fourth quarter of 2012 of \$106.6 million combined with realized gains form oil hedges of \$5.1 million, or \$111.7 million, detestard by \$2.8 million or 2% as compared to 2011's fourth quarter are 10.11.0 perating capital according of \$100.48 per barrel, which was 1% higher than the average heales of \$14.5 million, or \$11.7 million, detestard by \$2.8 million or 2% as compared to 2011's fourth quarter of 2011. Operating capital accounts of \$3.6 million, or \$4.7 million, the fourth quarter of 2012 as compared to 2011. Operating capital accounts of \$3.6 million or \$3.6 million or \$3.8 million or the fourth quarter of 2011, and EBITDAX, see an inspective interest, taxes, depreciation, depletion, amortization, exploration expense and other noncesh expenses, of \$8.2.4 million in the fourth quarter of 2012 decreased 8% from EBITDAX results of \$10.0 million in the fourth quarter of 2012 decreased 8% from EBITDAX results of \$10.0 million in the fourth quarter of 2012 decreased 8% from EBITDAX results of \$10.0 million in the fourth quarter of 2012 decreased 8% from EBITDAX results of \$10.0 million in the fourth quarter of 2012 decreased 8% from EBITDAX results of \$10.0 million in the fourth quarter of 2012 decreased 8% from EBITDAX results of \$10.0 million in the fourth quarter of 2012 decreased 8% from EBITDAX results of \$10.0 million in the fourth quarter of 2012 decreased 8% from EBITDAX results of \$10.0 million in the fourth quarter of 2012 decreased 8% from EBITDAX results of \$10.0 million in the fourth quarter of 2012 decreased 8% from EBITDAX results of \$10.0 million in the fourth quarter of

Constock reported a net loss of \$100.1 million or \$2.16 per share for the year ended December 31, 2012 as compared to a net loss of \$33.5 million or 73¢ per share for the year ended December 31, 2011. The 2012 results include a net gain of \$24.3 million (\$15.8 million (\$17.3 million after tax or 37¢ per share) on the sale of an Arketable securities which generated net proceeds of \$37.7 million, a gain of \$26.6 million (\$17.3 million after tax or 37¢ per share) on the sale of marketable securities which generated net proceeds of \$37.7 million, a gain of \$26.6 million (\$17.3 million after tax or 37¢ per share) on the sale of marketable securities which generated net proceeds of \$37.7 million, a gain of \$26.6 million (\$45.3 million after tax or 37¢ per share) on the sale of marketable securities which generated net proceeds of \$37.7 million, ator moderivatives of \$11.5 million after tax or \$1.2 per share). Results for the year ended December 31, 2011 included a gain on sale of marketable securities of \$35.1 million after tax or \$1.2 per share). Results for the year ended December 31, 2011 included a gain on sale of marketable securities of \$35.1 million after tax or \$1.2 per share). Results for the year ended December 31, 2011 included a gain on sale of marketable securities of \$35.1 million after tax or \$1.2 per share). Results for the year ended December 31, 2011 included a gain on sale of marketable securities of \$35.1 million after tax or \$1.0 per share).

Constock's oil production in 2012 of 2.3 million barrels increased 175% over production in 2011. Oil comprised 14% of equivalent production during 2012 as compared to only 5% in 2011. Natural gas production of 82.5 Bcf for the year ended December 31, 2012 decreased by 9% from the year ended December 31, 2011. Natural gas prices were substantially weaker in 2012 as compared to 2011. Compared to 2011 decreased 35% to 52.52 pc Mcf for 2012 as compared to \$3.9 hp er Mcf for 2011. The Compared's average realized natural gas price decreased 35% to 52.52 pc Mcf for 2012 as compared to \$3.9 hp er Mcf for 2011. The Compared's average realized natural gas price decreased 35% to 52.52 pc Mcf for 2012 as compared to \$3.9 hp er Mcf for 2011. The Compared's average realized natural gas price decreased 35% to 52.52 pc Mcf for 2012 as compared to \$3.9 hp er Mcf for 2011. The Compared's average realized only 56.3 hp inlino in 10 monor 2% as compared to 2011's sales of \$43.4 million. Revenues from oil sales of \$2.3.6 million not 11% from the year ended December 31, 2011, while revenues from natural gas sales decreased by \$14.51 million or 191% from the year ended December 31, 2011, while revenues from natural gas sales decreased by \$14.51 million or 191% from the year ended December 31, 2011, while revenues from natural gas sales decreased by \$14.51 million or 191% from the year ended December 31, 2011, while revenues from natural gas sales decreased by \$14.51 million at 1021 the revenues from average realized on the for 2011 for 2012 as compared to 2011's sales of \$2.51.51 million in 2011. The Compared to 2011's sales of \$2.50.51 million in 2011. The Compared to 2011's sales of \$2.50.51 million in 2011. The Compared to 2011's sales of \$2.50.51 million in 2011. The compared to 2012 as compared to 2011's sales of \$2.50.51 million in 2011. The Compared to 2012 as compared to 2011's sales of \$2.50.51 million in 2011. The Compared to 2012's are not 2012's and the revenues from natural gas sales decreased by \$14.51 million in 2011. T

2012 Drilling Results

Constock reported on the results of its 2012 drilling program. The Company spent \$489.7 million in 2012 on its drilling activities and \$35.1 million to acquire leases for future exploration and production and drilled 85 wells (54.2 net) and completed 74 wells (49.3 net). As of December 31, 2012 the company also had five oil wells (3.8 net) in the process of being drilled in South Texas and West Texas.

In the South Texas region, Comstock drilled 30 wells (20.5 net) during 2012, all of which were horizontal Eagle Ford shale wells. Uning 2012, Comstock completed 28 horizontal Eagle Ford shale wells, which were put on production at an average per well initial production of 647 barrels of oil equivalent (EOET) per day. As of December 31, 2012, Comstock had six (33 net) Eagle Ford shale wells wells well in a completion. The six new Eagle Ford wells reported on this quarter averaged 652 BOE per day with the Gloria Wheeler A #2H, the Gloria Wheeler B #2H and the Cutter Creek A #1H in McMulten County having the highest initial production with a 1656 BOE per day, respectively. These wells are being produced under the Company's restricted choke program and the initial restricted with a 1656 Inch choke.

In the West Texas region, the Company drilled 48 (30.5 net) wells in 2012, two (1.9 net) of which were horizontal Wolfcamp wells. Of the wells drilled, Comstock completed 29 (26.3 net) operated wells in 2012. These wells had an average per well initial production rate of 356 BOE per day. Comstock also participated in 16 (3.1 net) non-operated Wolfcone vertical wells which had an average initial production rate of 356 BOE per day. Wells in its Wolfcone field with had an initial production rate of 319 BOE per day. Comstock had three wells (1.0 net) availing completion. Since the last update, Comstock has completed eight additional wells in its Wolfcone field with had an initial production rate of 319 BOE per day. Comstock state the Middle Wolfcamp shale, the Dale Evans (36 eVH, was diageding) with a milliar and 212 BOE per day. Comstock's third horizontal well targeting the Wolfcamp "A" shale, the Gaucho 15 #1H, was drilled to a vertical depth of 10,665 feet with a 6,837 foot lateral. As of February 11, 2013, this well has been fracture stimulated with 18 stages and is being prepared for flow.

Restatement of Previously Issued Unaudited Quarterly Financial Statements in 2012

On February 8, 2013, the Company's audit committee concluded that it is necessary for the Company to amend and restate its financial statements for each of the fiscal quarters ended March 31, June 30, and September 30, 2012 with respect to the accounting and disclosures for certain derivative financial transactions under Accounting Standards Codification Topic 815, *Derivatives and Hedging* (*ASC 815'). Management recently determined that the formal documentation it had prepared to support its initial hedge designations for effectiveness in connection with the Company's crude oil hedging program were not compliant with the technical documentation requirements to qualify for cash flow hedge accounting treatment in accordance with ASC 815, and as a result, the Company was not permitted to utilize hedge accounting treatment in the preparation of its financial statements. The restatements efficiency output its initial hedge of the first first and a statements. The restatements efficiency output its initial hedge accounting treatment in the preparation of its financial statements. The restatements efficiency output its initial hedge accounting treatment in the preparation of its financial statements. The restatements efficiency output its instrained adjustments to oil and gas sales. Management intends to restate the quarterly results for the first three quarters of 2012 in connection with the fining of the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Under ASC 815, the fair value of hedge contracts is recognized in the Company's consolidated balance sheet as an asset or liability, as the case may be, and the amounts received or paid under the hedge contracts are reflected in earnings during the period in which the underlying production occurs. If the hedge contracts qualify for hedge accounting treatment, the fair value of the hedge contract is recorded in "accumulated other comprehensive income", and changes in the fair value do not affect net income in the period. If the hedge contract is reflected in earnings during the period as unrealized gain or loss from derivatives. Under the cash (more the cash (more the hedge contract is reflected in the anding during the period as unrealized gain or loss from derivatives. Under the cash (more the cash (more the hedge contract is reflected in the hedge contract is reflected in the anding during the period as unrealized gain or loss from derivatives. Under the cash (more the cash (more the cash (more the hedge contract) is reflected in the anding during the period as unrealized gain or loss from derivatives. Under the cash (more the cash (more the hedge contract) is reflected in the documentation failed to the requirements the change accounting treatment used by the Company, the fair value of the hedge contracts were recognized in the requirements necessary to utilize cash flow hedge accounting treatment, the utilized gain or loss should have been recognized that the documentation failed to meet the requirements the other the cash (more the cash (more the cash (more the cash)) and gas alses, and is reclassifying these amounts as a separate component of non-operating income and expense.

The Company will restate its consolidated unaudited quarterly financial statements for each of the quarters ended March 31, 2012, June 30, 2012 and September 30, 2012 as part of its Annual Report on Form 10-K for the fiscal year ended December 31, 2012. The Company expects the restatement will have the following effects on its results of operations for the three months ended March 31, 2012, the three months ended June 30, 2012 and the three and nine months ended September 30, 2012:
